

Lechuza®

Durable furniture – with comfort and style

LECHUZA introduces a completely new range of products for residential and commercial use

geobra Brandstätter, a company from Middle Franconia, Germany, has made a name for itself in recent years among both residential consumers and customers in the café, restaurant and hotel business with its functional, high-quality LECHUZA planters. Now LECHUZA is expanding its successful range of products with attractive furniture made of high-grade plastic – a new business segment that is sure to attract the attention those who love the outdoors and appreciate an aesthetic living style as well as café and restaurant owners and hoteliers.

Attractive design – functional concept

The tasteful and stylish chairs and tables feature a charming and attractive wicker-like surface structure. They are made of high-quality LECHUZA materials that are UV resistant, frostproof and very easy to clean, so users will be able to enjoy their LECHUZA furniture for many years to come. Their durability also makes them ideal for use in cafés, hotels and restaurants – or in classic living environments and cozy winter gardens.

The chairs have a durable, air-permeable mesh seat and back that provides pleasant air circulation on hot days. Their slightly flexible shell offers maximum comfort and they can be stacked multiple times to save space.

The matching rectangular or square table also utilizes the attractive mesh design but incorporates an opaque lacquered tabletop made of safety glass. The adjustment screws integrated in the table legs provide stability even on uneven ground.

LECHUZA Cottage series planters in the country house style perfectly complement the furniture with its white and granite surface colors and mesh design. It's nice to know you can sit back and enjoy your new favorite place while the innovative LECHUZA sub-irrigation system takes care of your plants for you.

Quality made in Germany

Just like the planters, LECHUZA furniture is manufactured at a modern plant in Dietenhofen, Germany to guarantee consistently high quality.
