

# Enjoying plants is child's play

... is the new motto for the popular MINI-DELTINIs.

This fall 2015, fans of the smallest models in the LECHUZA collection will have even more choices to make: Besides the already available colors white, taupe, ice blue, apricot, pastel violet and mint green, the MINI-DELTINIs will also come in the bold colors fuchsia, peacock blue and olive green. You'll want to have them all!

## A real hoot with the "Owl" special edition

Kids aren't the only ones who will love the MINI-DELTINIs with the colorful owl prints. Charming owls in comical designs reminiscent of the LECHUZA owl ("lechuza" is Spanish for owl) decorate the planters. The new owl designs bring smiles to faces even on rainy days because they are simply enchanting. The planters make a great gift idea for little (and big) hobby gardeners and teach them a lot about plants in a fun and interesting way. The packaging already looks like a present with its owl design, so you don't need any extra ribbons, foil or wrapping paper.

The proven LECHUZA irrigation system is also integrated in MINI-DELTINI – including the planter liner, water level indicator and LECHUZA-PON plant substrate.

The new colors fuchsia, peacock blue and olive green and the new special edition with owl design will be available in stores October 2015.

Dimensions (Ø x H): 10 x 13 cm (4 x 5 inch) ; Water reservoir: 0.2 liter (7 oz)
