- LECHUZA CARARO with stylish high-gloss or metallic finishes and integrated rollers
- LECHUZA sub-irrigation set incl. water level indicator
- High-quality, shatterproof material made of polypropylene

LECHUZA CARARO and TRIO Cottage – Versatile use

A trough planter's characteristic shape is very appealing and makes it perfect for a variety of uses. With CARARO and TRIO, LECHUZA offers two different models that are ideal for adding your own special touch. Their design makes them a natural and stylish way to partition or visually section a room. Thanks to the optional trellis, LECHUZA TRIO is also great for patios or balconies, acting as a privacy screen or small bed for climbing fruits and vegetables. CARARO comes with practical rollers that click into the bottom of the planter, giving you freedom to change your arrangement whenever you want. You can effortlessly roll the planter to whichever location you desire.

Like all planters from LECHUZA, CARARO and TRIO also come as an All-in-One Set equipped with the LECHUZA sub-irrigation system. TRIO comes with three liners for each section of the planter. Plant care and individual decoration is unbelievably simple with LECHUZA.

- TRIO Cottage – Intelligent functionality for balcony and patio
- CARARO – The stylish room divider

For more detailed information concerning the individual models (e.g. sizes, colors, prices or availability) please contact the PR department.
